## NORWEGIAN QUALITY SINCE 1960

All Saga Boats are built in our own yard by Stadthavet, Norway

Since Saga Boats was established in 1960, our goal has been to build quality boats where the best sea-going capabilities, combined with our local tradition of excellent craftsmanship have been the main focus. By utilizing our own knowledge, reinforced by close collaboration with leading boat designers, we have succeeded in achieving our goal. All Saga Boats are produced and laminated in our own yard in Selje on the Norwegian west coast. Since the early 1980s semi-displacement boats has been the heart of the Saga Boats product range. The company has been owned and run by the same family since 1960.

Saga Boats is known as a brand of quality in Norway as well as abroad. A clear production philosophy with focus on semi-planning characteristics, reliability and product quality ensure the Saga customers the best product combined with long tradition, experience and competence.
